

Getting Started

What is Loudclass Author?

Loudclass Author is a software program for making interactive textbooks for use in Loudclass Interactive.

Users can import digitized version of a paper book and add various objects to it, in order to create interactive digital textbooks.

- Importing document (PDF or PPT)
- Importing images (JPG or PNG)
- Adding multimedia files
- Adding widgets
- Adding activities
- Publishing in e-Pub format

Overview of the main window

All features to create a textbook are provided in one screen. Chapters and pages are in the left panel, the creation toolbar is on the top, and the content and change properties are in the remaining space.
